

# Easy Read Guide to Adult Care Assessments

Your assessment could begin with a telephone call to Wiltshire Council

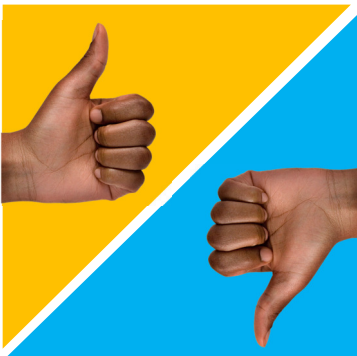

Their telephone number is

0300 456 0111

**They will ask you about:**

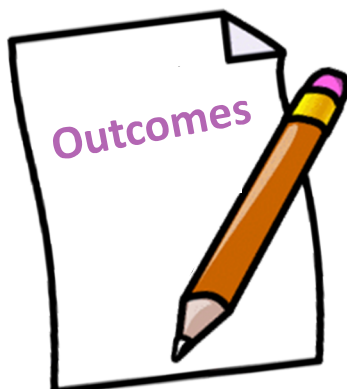

- What is important to and for you
- What you would like for the future

- What you can do
- What you find hard to do

- What support you need

These are called outcomes

If we need more information a worker will make an appointment to see you face to face

When we meet you can choose to invite the people who know you best

If you have nobody who can support you in your assessment then your worker can get somebody to help

**The worker will ask you about these things:**

- Eating healthy

- Keeping yourself clean

- Using the toilet

- Choosing the right clothes to wear

- Work
- Training
- Education
- Volunteering

- Keeping your house clean

- Seeing your family and making friends

- Being safe at home

- Getting out and about

- Looking after your children

We will use the information you tell us about your life to decide if you can have help and support

If your help and support costs money you will be given a budget

You will also have a financial assessment to see how much you can pay towards your support.

**Together we will decide what you can spend this on:**

If you have any questions you can:

Phone Call
